

PETRONAS LUBRICANTS

PETRONAS Sprinta 2T Air Cooled Two-Stroke Motorcycle Oil

Intro

PETRONAS Sprinta 2T is a special blend motorcycle oil specially formulated for use in two-stroke engines.

Formulated from premium quality base oils and carefully selected high-performance lowash additives system to provide a very cost-effective superior performance for the lubrication of high performance two-stroke engines running under very severe and demanding conditions.

Applications

Two-stroke motorcycle engines with automatic oil-injection or premix systems.

Customer Benefits

- Prevent excessive engine parts wear
- Ensure high level of engine cleanliness.
- Provide good control against exhaust system blocking.
- Prolong spark plug life.
- Economical (good value for money)
- Self-mixing with leaded and unleaded petrol

Product Typicals

Characteristics	Value
Density @ 15 °C, kg/l	0.889
Pour Point, °C	-6
Flash Point, °C	266
Kinematic Viscosity, cSt	
@ 40 °C	98.2
@ 100 °C	11.1
Viscosity Index	97
Colour	Green

Specifications

Exceeds the requirements of :

- JASO FA
- API TB (Obsolete)
