

# PETRONAS LUBRICANTS

## PETRONAS Sprinta 2T 1000 Premium Quality Two-Stroke Motorcycle Oil

### Intro

PETRONAS Sprinta 2T 1000 is a premium quality motorcycle oil specially formulated for the total protection of modern high performance two-stroke motorcycle engines.

Formulated from premium quality base oils and unique high-performance low-ash additives system to provide excellent performance and engine protection for the lubrication of high performance two-stroke engines running under very severe and demanding conditions.

### Applications

Two-stroke motorcycle engines with automatic oil-injection or premix systems.

### Customer Benefits

- Reduced smoke
- Maintain engine efficiency and power for smoother riding.
- High level of lubricity and excellent engine cleanliness.
- Excellent control against exhaust system blocking.
- Prevent seizure
- Prevent spark plug fouling
- Prolong engine life
- Self-mixing with leaded and unleaded petrol

### Product Typicals

Characteristics	Value
Density @15 °C, kg/l	0.895
Pour Point, °C	-6
Flash Point, °C	120
Kinematic Viscosity, cSt	
@ 40 °C	86.5
@ 100 °C	10.6
Viscosity Index	105
ASTM Colour	Green

### Specifications

Exceeds the requirements of :

- JASO FB
- API TC
- All Major Motorcycle Manufacturers
