

PETRONAS LUBRICANTS

PETRONAS Sprinta 4T 2000 High Performance Four-Stroke Multigrade Motorcycle Oil

Intro

PETRONAS Sprinta 4T 2000 is an SAE 20W-50 multigrade engine oil specially formulated for the lubrication of modern high performance four-stroke motorcycle engines.

It is manufactured from highly refined mineral base oils and specially selected superior performance additives to provide the extra engine protection and longer engine life running under all operating conditions.

Applications

- High performance air and water cooled four-stroke motorcycle engines
- Two-stroke motorcycle gearboxes

Customer Benefits

- Excellent engine and transmission protection from excessive wear
- Superior engine cleanliness - ensures low engine wear, prolongs component life and maintains high power output.
- Excellent engine protection - prolongs engine life and reduces maintenance cost.
- Smooth gearshift and clutch performance - ensures smooth ride.
- Fully compatible with leaded or unleaded petrol

Product Typicals

Characteristics	Value
Density @15 °C, kg/l	0.893
Pour Point, °C	-24
Flash Point, °C	226
Kinematic Viscosity, cSt	
@ 40 °C	182.4
@ 100 °C	18.1
Viscosity Index	109
ASTM Colour	2.5

Specifications

Exceeds the requirements of:

- API SG
- All Major Motorcycle Manufacturers
